

EDGELESS LIQUID

Edgeless Liquid Turf Growth Regulator

8 oz bottle

Part #11-108

Edgeless Liquid Turf Growth Regulator integrates the patented synergy of two turf growth regulators to control growth of turf grass and reduce string trimming requirements of both warm and cool-season turfgrass. The correct application can result in up to 8 weeks of growth control, resulting in reduced labor and fuel cost. Unlike herbicide applications, Edgeless does not discolor turf.
