

1.

PRODUCT NAME F

Product Code: Date of issue:

PRIMERAONE 16-3-16 CAL-MAG SPECIAL

NL.2160316TURF_168_01_US May 2016

PRODUCT AND COMPANY IDENTIFICATION Product identifier PrimeraOne 16-3-16 Cal-Mag Special Recommended uses: Fertilizer end-use, preparation of fertilizers mixtures. Dry fertilizer for mixing with water for foliar and soil applications. Restrictions on uses: None SQM North America 2727 Paces Ferry Rd, Building Two, Suite 1425 Atlanter CA 20220

Company Telephone/Fax Emergency Telephone Number SQM North America 2727 Paces Ferry Rd, Building Two, Suite 142! Atlanta, GA 30339 (770) 916 9400 / (770) 916 9404 (800) 424 9300 (CHEMTREC)

2. HAZARDS IDENTIFICATION

Classification of the mixture

Classification of the chemical in accordance with 29CFR §1910.1200

Hazard classes and Hazard categories Oxidizing solid, Cat. 3 Acute toxicity, oral, Cat. 4 Skin irritant, Cat. 2 Irreversible eye effects, Cat. 1 Hazard statements May intensify fire; oxidizer Harmful if swallowed Causes skin irritation Causes serious eye damage

Label elements Hazard pictograms

Signal word Hazard Statements

DANGER May intensify fire; oxidizer Harmful if swallowed Causes skin irritation Causes serious eye damage

Precautionary Statements

Keep away from heat. Keep/Store away from clothing/flammable/reducing/combustible materials.

Take any precaution to avoid mixing with flammable/reducing/combustible materials.

Wash hands thoroughly after handling.

Do not eat, drink or smoke when using this product.

Wear protective gloves / protective clothing / eye protection / face protection.

In case of fire: use any suitable mean for extinguishing surrounding fire. Spray water for small fires. For large fires flood with abundant water.

IF SWALLOWED: Rinse mouth. Call a POISON CENTER or doctor/physician if you feel unwell.

IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash it before reuse.

If skin irritation occurs: Get medical advice / attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor/physician.

Dispose of contents/container according to local/state/federal regulations.

Other hazards

None

Classification of the relevant ingredients of the mixture in accordance with 29CFR §1910.1200

Potassium nitrate Hydrated ammonium calcium nitrate double salt Ammonium nitrate Urea phosphate Oxidizing solid, Cat. 3 Acute Toxicity Cat. 4 oral; Serious eye damage, Cat. 1 Oxidizing solid, cat. 3; Eye irritant, Cat. 2 Skin Corrosive Cat. 1B

PRODUCT NAME

Product Code:

Date of issue:

PRIMERAONE 16-3-16 CAL-MAG SPECIAL

NL.2160316TURF_168_01_US May 2016

	sidered as a mixture/prepara	ation							
Substance name		CAS No	EC No	Concentration					
Potassium nitrate		7757-79-1	231-818-8	25% - 45%					
Hydrated ammonium calci	um nitrate double salt	15245-12-2	239-289-5						
Ammonium nitrate		6484-52-2	229-347-8	1% - 35%					
Urea phosphate		4861-19-2	225-464-3	< 5%					
Perchlorate (ClO ₄)				< 0.01%					
lodate (IO_3)				< 50 ppm					
FIRST AID MEASURE	S								
Description of first aid me	asures								
General information									
	se effects consult a physician								
Never give anything by mo	outh to an unconscious perso	on or a person with o	cramps.						
In case of inhalation Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention for any breathing difficulty. In case of skin contact Wash with plenty of soap and water. Take off contaminated clothing and wash it before reuse.									
					If skin irritation occurs: Ge	t medical advice / attention.			
					In case of eye contact				
					Rinse cautiously with wate	er for several minutes. Remov	ve contact lenses, if	present and easy to	do. Continue rinsing.
					Immediately call a POISON	I CENTER or doctor/physiciar	1.		
In case of ingestion									
Rinse mouth and drink ple	nty of water. Call a POISON (CENTER or doctor/p	hysician if you feel ui	nwell.					
Most important symptoms and effects, both acute and delayed									
The following symptoms n	nay occur:								
In case of inhalation	Irritation to respiratory tra	act							
	Delayed lung effects after	short term exposur	e to thermal degrada	tion products					
	Causes skin irritation		-						
In case of skin contact									
In case of skin contact In case of eye contact	Causes serious eye damag	e							
	Causes serious eye damag Harmful if swallowed. Inge		ints may cause: gastr	ointestinal disturbances.					

5. FIRE FIGHTING MEASURES

Suitable extinguishing media: Use any suitable mean for extinguishing surrounding fire. Spray water for small fires. For large fires flood with abundant water. None, but attention should be paid to compatibility with chemicals surrounding.

Unsuitable material:

Specific hazards arising from the chemical

Oxidizer. Contact with combustible materials will not cause spontaneous ignition, however, this product will enhance an existing fire.

Thermal decomposition can lead to the escape of toxic/corrosive gases and vapours.

Thermal decomposition products: Nitrous oxides (NOx), nitrites, phosphorus oxides, ammonia and metallic oxides.

Protective equipment and precautions for firefighters

Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (self contained breathing apparatus (SCBA)).

Product Code: Date of issue:

PRODUCT NAME

PRIMERAONE 16-3-16 CAL-MAG SPECIAL

NL.2160316TURF_168_01_US May 2016

6. ACCIDENTAL RELEASE MEASURES

Personal precautions

Provide adequate ventilation. Wear personal protection equipment (Section 8).

Environmental precautions

Do not allow to enter into surface water or drains. Ensure waste is collected and contained.

Methods and material for containment and cleaning up

Take up mechanically, placing in appropriate containers for disposal or recovery.

Unsuitable material for containment/taking up: Do not absorb in saw-dust or other combustible absorbents. **Other information**

None

7. HANDLING AND STORAGE

Precautions for Safe Handling

Avoid generation of dust. Provide adequate ventilation. Wear personal protective equipment. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Keep away from flammable, combustible, strong acids, strong alkalis and reducing substances.

Conditions for safe storage, including any incompatibilities

Keep/store only in original container. Store in a well-ventilated place. Keep container tightly closed.

Do not store together with:

Flammable substance, reducing agents, strong acids, strong alkalis, empty wood pallets.

Perchlorate containing product - Special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate and Section 15 for more information regarding California State regulations.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure	Guidelines		
Occupatio	onal exposure limits		
		Potassium nitrate	Ammonium nitrate
OSHA	PEL	Not Established	Not Established
	STEL/ceiling	Not Established	Not Established
ACGIH (20	12 TLVs [®] and BEIs [®])		
	TWA	Not Established	Not Established
	STEL/ceiling	Not Established	Not Established
		Hydrated ammonium calcium nitrate	Urea phosphate
OSHA	PEL	Not Established	Not Established
	STEL/ceiling	Not Established	Not Established
ACGIH (20	12 TLVs [®] and BEIs [®])		
	TWA	Not Established	Not Established
	STEL/ceiling	Not Established	Not Established

Derived No-Effect Level (DNEL) suggested by the manufacturer

Workers (industrial/professional):	
DNEL Human, dermal, long term (repeated):	20 mg/kg/day (systemic)
DNEL Human, inhalation, long term (repeated):	30 mg/m ³ (systemic)

Derived No-Effect Level (DNEL) is the level of exposure to the substance above which humans should not be exposed.

Engineering controls

Use exhaust ventilation to keep airborne concentrations below exposure limits.

Personal Protective Equipment

Eye/face protection	Tightly sealed safety goggles. Face protection if direct exposure occurs.
Skin Protection	Nitrile rubber gloves, over 0.11 mm thickness, > 480 min breakthrough time. Overall.

NL.2160316TURF_168_01_US May 2016

Respiratory Protection

Wear respiratory protection, where airborne concentrations are expected to exceed exposure limits.

General Hygiene Considerations

Avoid contact with eyes and skin. Wash hands thoroughly after handling. Have eye-wash facilities immediately available. Do not eat, drink or smoke when using this product.

9. PHYSICAL AND CHEMICAL PROPERTIES

PRODUCT NAME

Product Code:

Date of issue:

Information on basic physical and chemical properties			
Appearance	Solid, crystalline powder		
Colour	Pale blue		
Odour	Odourless		
Odour Threshold	No applicable		
pH value	No data available		
Melting point / freezing range	No data available		
Boiling temperature / boiling range	Not applicable		
Flash point	Not applicable		
Vapourisation rate / Evaporation rate	No data available		
Flammable solids	Not flammable		
Explosion limits (LEL, UEL)	Not applicable		
Vapour pressure	Not applicable		
Vapour density	Not applicable		
Relative Density	No data available		
Solubility	> 100 g/L at 20°C/68°F (water)		
Partition coefficient n-octanol /water	Not applicable		
Auto Ignition temperature (AIT)	Not applicable		
Decomposition temperature	No data available		
Viscosity	Not applicable		
Explosive properties	Not explosive		
Oxidising properties	Oxidizer		
Other information			
None			

10. STABILITY AND REACTIVITY

Reactivity

No hazardous reaction when handled and stored according to provisions.

Chemical stability

Stable under normal storage and temperature conditions.

Possibility of hazardous reactions

None identified

Conditions to avoid

Keep away from flammable, combustible, strong acids, strong alkalis and reducing materials.

Incompatible materials

Flammable, combustible, strong acids, strong alkalis and reducing substances under specific conditions. These incompatible materials shall not include approved packaging materials, pallets, or other dunnage (NFPA 430/2004, Code for the Storage of Liquid and Solid Oxidizers, item 4.4.3.1).

Hazardous decomposition products

Thermal decomposition products:

Nitrous oxides (NOx), nitrites, phosphorus oxides, ammonia and metallic oxides.

PRODUCT NAME Product Code: Date of issue:

PRIMERAONE 16-3-16 CAL-MAG SPECIAL

NL.2160316TURF_168_01_US May 2016

11. TOXICOLOGICAL INFORMATION

Assessment / classification:

The following information mostly refers to the major component of the product. Likely routes of exposure (inhalation, ingestion, skin and eye contact) Eye contact, skin contact and inhalation. Exposure by ingestion is not expected to occur through normal industrial or agricultural use. Symptoms related to the physical, chemical and toxicological characteristics May be irritant to the respiratory tract. Causes serious eye damage. Causes skin irritation. Harmful if swallowed. Ingestion of large amounts may cause gastrointestinal disturbances. May cause delayed lung effects after short term exposure to thermal degradation products. Information on toxicological effects from short and long term exposure There is no data for the mixture itself. Acute toxicity Acute oral toxicity LD50: Acute Toxicity Estimate for the mixture 1250 - 1500 mg/kg bw (additivity formula) LD50: Acute dermal toxicity Acute Toxicity Estimate for the mixture >2000 mg/kg pc (additivity formula) Acute inhalation toxicity LC50: Acute Toxicity Estimate for the mixture Does not contain acutely toxic ingredients/impurities. Assessment / classification: Based on available data for the ingredients of the mixture, this product is classified and labelled as Acute Tox. Oral cat. 4, in accordance with Appendix A to 29CFR section 1910.1200. Irritant and corrosive effects Irritation to the skin Result Method Potassium nitrate non-irritant. Equivalent/similar to OECD guideline 404 Hydrated ammonium calcium nitrate double salt Equivalent/similar to OECD guideline 404 non-irritant. Ammonium nitrate non-irritant. Equivalent/similar to OECD guideline 404 Urea phosphate Corrosive (Cat. 1B, PKG II) Skin irritation in vitro, OECD Guideline 435 Assessment / classification: Based on available data for ingredients of the mixture, this product is classified and labelled as Skin irritant, cat. 2, in accordance with Appendix A to 29CFR section 1910.1200. Result Irritation to eyes Method Not-irritating **OECD** Guideline 405 Potassium nitrate Hydrated ammonium calcium nitrate double salt Irreversible effects (cat.1) **OECD** Guideline 405 Ammonium nitrate Irritating (cat. 2) **OECD** Guideline 405 Urea phosphate Irreversible effects (cat.1) Skin irritation in vitro, OECD Guideline 435 Based on available data for ingredients of the mixture, this product is classified and Assessment / classification: labelled as cat. 1, irreversible eye effects, in accordance with Appendix A to 29CFR section 1910.1200. **Respiratory or skin sensitisation** Skin sensitization Result Main ingredients not sensitizing. No information available. Urea phosphate Urea phosphate is classified as corrosive, thus, no information on skin sensitization is deemed necessary. **Respiratory** sensitisation No information available. Assessment / classification: Based on available data for the ingredients of the mixture, the classification criteria are not met. Genetic effects The product does not contain ingredients classified as germ cell mutagens. Bacterial (Ames Test) Chromosomal aberrations Mutation in mammal. cells Main ingredients negative negative negative

Based on available data for the ingredients of the mixture, the classification criteria

may affect iodine uptake by thyroid ur	nder specific condit	ions		

12. ECOLOGICAL INFORMATION

There is no data for the mixture itself. The following information mostly refers to the major component of the product. **Ecotoxicity**

Aquatic Toxicity

Toxicity estimate for the mixture (summation method)

96-h L(E)C50	>100 mg/L	Fish
24-h E(E)C50	>100 mg/L	Daphnia magna (fresh water flea).
72-h E(E)C50	> 100 mg/L	Algae
Assessment / classification	Based on available data for the ingredients of the mixture, the classification criteria are not met.	

Persistence and degradability

The product contains mainly inorganic nitrate and phosphate salts. In aqueous solutions, these salts dissociate into their respective ions. Phosphate ions are finally incorporated into the Phosphorus cycle. Under anoxic conditions, denitrification occurs and nitrate is ultimately converted into molecular nitrogen as part of the Nitrogen cycle.

Bioaccumulative potential

Low potential for bioaccumulation based on physicochemical properties of main components.

PRODUCT NAME PRIMERAONE 16-3-16 CAL-MAG SPECIAL

Product Code: Date of issue: NL.2160316TURF_168_01_US May 2016

Mobility in soil

The components of this mixture have a low potential for adsorption. Portion not taken up by plants, can leach to groundwater. **Other adverse effects**

Excess nitrate leaching may enrich waters leading to eutrophication.

13. DISPOSAL CONSIDERATIONS

Disposal should be in accordance with applicable federal and state laws.

It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal method in compliance with applicable regulations.

Waste containing nitrates that exhibit the characteristic of ignitability has the EPA Hazardous Waste Number of D001 according to the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.

Perchlorate containing product - Special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate and Section 15 for more information regarding California State regulations.

14. TRANSPORTATION INFORMATION

US DOT (49CFR part 172)	
UN-No.	1477
UN Proper Shipping Name	NITRATES, INORGANIC, N.O.S.
