

VEROLITE™

Multiwall Polycarbonate Sheet

LEXAN™ VEROLITE™ 8mm twin wall polycarbonate sheet offers a high degree of light transmittance while blocking harmful ultra violet rays. In its structured sheet form, this multiwall sheet also offers excellent thermal insulation properties. An anti-condensate feature on the interior surface of the sheet protects plants, furnishings, and/or equipment below from water damage. Verolite multiwall polycarbonate sheets are economical, lightweight, and can be easily fabricated on site.

- **High Light Transmission**
81% PAR Clear / 50% PAR Bronze
40% PAR Opal
- **Virtually Unbreakable**
- **Easily Fabricated On-Site**
- **Anti-Drip/Anti-Fog Feature**

High Light Transmission

LEXAN™ VEROLITE™ Multiwall Sheet offers a high degree of light transmittance while blocking harmful ultra violet rays. (81% PAR CLEAR | 50% PAR BRONZE | 40% PAR OPAL). In its structured sheet form, LEXAN™ VEROLITE™ also offers excellent thermal insulation properties.

Virtually Unbreakable

LEXAN™ VEROLITE™ Sheet is economical and light in weight, yet is 10 times stronger than acrylic and 200 times stronger than glass!

Easily Fabricated On-Site

Highly flexible, a LEXAN™ VEROLITE™ Sheet can be easily cold formed and will not crack or splinter when fabricated.

Anti-Drip Coating

Our Drippard coating ensures that greenhouse condensation is carried away from the roofing so that droplets will not damage your nursery stock. Call for more information and availability.

Polycarbonate Profiles

Join LEXAN™ VEROLITE™ Sheet with a complete line of polycarbonate profiles.

Warranty

LEXAN™ VEROLITE™ Sheet carries a full non-prorated warranty against yellowing and breakage caused by hail for ten (10) years.
