### SECTION 2 — HAZARDS IDENTIFICATION

Route of Entry	🛛 Skin Contact	🗌 Skin Absorption 🛛 Eye Contact	☑ Inhalation	
Emergency Overvie	W			
respiratory tra area. Pick up in appropriate operations m	act. Wear approp released produc e containers for d ay be contamina	riate personal protective equipn t with appropriate implements a isposal. Although the product its ted and should be treated as ha	nent. Keep indivi nd return to origi self is non-hazar zardous unless s	tion of eyes, skin, mucous membranes and duals not involved in the cleanup out of the nal container if reusable. If not reusable, place dous, material collected during clean up specific testing, including TCLP, shows the ted to present an environmental hazard.
WHMIS Symbols	- d			
Not Regulate				
No specific lo inert particula	ong term health e	high concentrations of vermicu		a free vermiculite. As is true of all nuisance or particulates over prolonged periods of time
Symptoms m pulmonary ill several years human carcir	hay include, coug ness. The onset of and is accompa nogen (2A) by the	h, shortness of breath, wheezing of symptoms, except in cases of nied by changes in the x-ray pic	g, decrease in pu massive exposi ture of lungs. Cr urch on Cancer (l	essive, disabling lung disorder (silicosis). Ilmonary function, and recurring non-specific Ires, is usually gradual over a period of ystalline silica has been listed a potential ARC) and as a substance that can be program.
Pre-existing l	ung and skin cor	ditions may possibly be addrava	ated by exposure	e to the components of the product.

# SECTION 3 — COMPOSITION/INFORMATION ON INGREDIENTS

Hazardous Ingredients (specific)	%	CAS Number	LD <sub>50</sub> of Ingredient (specify species and route)	LC 50 of Ingredient (specify species)	OSHA PEL (mg/m3)	ACGIH TLV (mg/m3)
Vermiculite (Magnesium, Aluminum Iron Silicate)	>98	1318-00-9	Not Available	Not Available	10	1
Silica	≈1	14808-60-7	Not Available	Not Available	Not Available	.05

### SECTION 4 — FIRST AID MEASURES

Skin Contact

Wash thoroughly with mild soap and water. Seek medical attention if irritation develops. Remove any contaminated clothing and launder thoroughly before reuse.

Eye Contact

Flush with tepid water for at least 20 minutes holding the eyelids wide open. Seek medical attention if irritation develops.

Remove exposed person to fresh air. If breathing is difficult, oxygen may be administered. If breathing has stopped, artificial respiration should be started immediately. Seek medical attention.

Ingestion

Not expected to be an important route of entry into the body. If large amounts of the product are ingested, seek medical attention.

# SECTION 5 — FIRE FIGHTING MEASURES

Flammable	If yes, under which conditions?			
Tes No				
Means of Extinction				
Use extinguishing media appropriate for s	urrounding material.			
Flashpoint (° C) and Method	Upper Flammable Limit (% by volume)	Lower Flammable Limit (% by volume)		
Not Available	Not Available	Not Available		
Auto ignition Temperature (°C)	Explosion Data — Sensitivity to Impact	Explosion Data — Sensitivity to Static Discharge		
Not Available	Not Available	Not Available		
Hazardous Combustion Products				
Not Available				
NFPA				
Health: 1, Flammability: 0, Reactivity: 0, Other: None				

# SECTION 6 — ACCIDENTAL RELEASE MEASURES

Pick up released product with appropriate implements and return to original container if reusable. If not reusable, place in appropriate containers for disposal. Appropriate personal protective equipment cited in Section 8 should be worn during all clean up operations. Although the product itself is non-hazardous, material collected during clean up operations may be contaminated and should be treated as hazardous unless specific testing, including TCLP, shows the collected material to be non hazardous

# SECTION 7 — HANDLING AND STORAGE

Handling Procedures and Equipment

Appropriate personal protective equipment cited in Section 8 should be worn during handling. Wet mopping or vacuuming with a unit that contains a HEPA filter is recommended to clean up any dusts that may be generated during handling and processing. See also section 6. Wash hands and face thoroughly before eating, drinking or smoking.

Storage Requirements

Do not store with or near incompatible materials cited in Section 10. Store in tightly closed containers out of contact with the elements. Good housekeeping and engineering practices should be employed to prevent the generation and accumulation of dusts.

# SECTION 8 — EXPOSURE CONTROL / PERSONAL PROTECTION

	ACGIH TLV	OSHA PEL	Other (specify)	)		
Specific Engineering Controls (such a	as ventilation, enclosed	process)				
Local exhaust ventilation of 10 mg/M <sup>3</sup> for total particular systems may be found i ACGIH Committee on Ir should be evaluated by professional engineer.	articulates and in the latest edi ndustrial Ventila	3 mg/M^3 for re tion of "Industria ation, P.O. Eye: Chemical protectiv glasses with side shield				e possibility of ey	e contact wit	h the product. Safety
Clothing: A polymeric coated apron or other body covering is recommended where there is a possibility if regular work clothing becoming contaminated with the product. All soiled or dirty clothing and personal protective equipment should be thoroughly cleaned and reuse.						

# SECTION 9 — PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Odor and Appearance	Odor Threshold (ppm)
Solid	Tan/Brown Flakes, Granules, or Powder.	None
Specific Gravity	Vapor Density (air = 1)	Vapor Pressure (mmHg)
(Bulk) 4-9 lbs./cu.ft.	N/A	N/A
Evaporation Rate	Boiling Point (° C)	Freezing Point (° C)
N/A	Not Determined	N/A
pH	Coefficient of Water/Oil Distribution	[Solubility in Water]
N/A	N/A	<1 %

# SECTION 10 — STABILITY AND REACTIVITY

Chemical Stability		If no, under which conditions?	
⊠ <sub>Yes</sub>	□ <sub>N</sub> ₀		
Incompatibility with Other Substances	3	If yes, which ones?	
⊠Y e s	□ N 0	Do not store with strong acids, or reducing agents.	
Reactivity and under what conditions?			
Product will undergo an exfoliation reaction with a resultant large increase in volume at approximately 300°.			
Hazardous Decomposition Products			
None that are known. Product is stable to at least 2400° F.			

#### SECTION 11 — TOXICOLOGICAL INFORMATION

Effects of Acute Exposure

Eye contact may cause mechanical irritations if exposed to excessive amount of vermiculite. Skin contact may aggravate existing dermatitis. Inhalation from prolonged and continuous exposure may aggravate existing asthmatic or respiratory conditions.

Effects of chronic exposure

Prolonged inhalation of excessive levels vermiculite dust may cause a simple pneumoconiotic condition, not normally associated with a decrement in lung function. In cases of long-term exposure to extremely high levels of dust, complicated pneumoconiosis with lung function may occur.

N/A			
Skin sensitization	Respiratory sensitization

Name of synergistic products/effects			

# SECTION 12 — ECOLOGICAL INFORMATION

Aquatic Toxicity

In vitro ecotoxicity studies conducted on aqueous extracts of the product under the auspices of the South African Department of Water Affairs and Forestry in 1998 indicated that the product most probably is not toxic to the environment. In each of the ecotoxicity tests cited below, 50 grams of the product were extracted with a liter of distilled water. The resulting solution was used to derive the toxicity parameters. The 48 hour EC<sub>0</sub> and EC<sub>50</sub> (Daphnia pulex lethality) were determined to be >50 milligrams of extract per liter (mg/l). The 72 hour EC<sub>0</sub> and EC<sub>50</sub> (algal, Selenastrum capricornutum, growth inhibition) were determined to be >50 mg/l. The 72 hour EC<sub>0</sub> and EC<sub>50</sub> (bacterial, Pseudomonas putida, growth inhibition) were determined to be >50 mg/l. The 48 hour EC<sub>0</sub> and EC<sub>50</sub> (frog, Xenopus laevis, embryo lethality) were determined to be >50 mg/l.

# SECTION 13 — DISPOSAL CONSIDERATIONS

Waste Disposal

As prepared, product is considered non-hazardous. It should be disposed of in and EPA approved landfill in accordance with all local, state and federal regulations. If used or waste product is disposed of testing, including TCLP, should be conducted to determine hazard characteristics. Empty containers will contain product residues. Observe proper safety and handling precautions. Do not allow empty containers or packaging to be used for any purpose except to store and ship original product.

### SECTION 14 — TRANSPORT INFORMATION
