

# CAST LIGHTING

www.cast-lighting.com

Rugged, beautiful, well designed and economical – this describes CAST solid bronze fixtures. They are hand-made by skilled artisans using the ancient technique of sand-casting,

then assembled with the highest grade of stainless steel sockets and tin-coated wire. These fixtures are unmatched as professional tools for the lighting designer.

## MUSHROOM, CHINA HAT & SAVANNAH AREA/PATH LIGHTS

Mushroom, China Hat and Savannah Lights serve to illuminate planting beds, walkways or driveways. They provide a circular spread of soft lighting.

- \* No-glare reflected light source (Mushroom and China Hat)
- \* Decorative scroll (Savannah)
- \* Solid bronze top, body and stake
- \* Heavy-gauge copper stem
- \* All stainless steel hardware
- \* Includes "Fixture Record Tag"
- \* Pre-wired with 25', #16-2 No-Ox® tin-coated marine-grade wire
- \* Uses wedge base krypton halogen lamp (included)

Mushroom

China Hat

New Orleans

Item No	Description
61-1022	Small Mushroom Path Light w/WBK 25 W 25' 16-2
61-1024	Small China Hat Path Light w/WBK 25 W 25' 16-2
61-1026	Large China Hat Path Light w/WBK 25 W 25' 16-2
61-1028	Savannah Path Light w/WBK 25 W 25' 16-2
61-1027	New Orleans Path Light w/WBK 25 W 25' 16-2
16060	LED Retrofit for CSA& & CLAA Path Lights

## MR-16 DIRECTIONAL BULLET LIGHT

This low voltage LED landscape light combines the rugged solid construction of the CAST Bullet with the industry's most advanced and feature-filled module. With just one finish (solid sand-cast bronze), two light levels, and 3 optical beam spreads, this one LED light replaces (and surpasses) the dozens of models from other manufacturers.

- \* Solid sand-cast bronze body and shroud
- \* Solid PTFE Coated Eurometal stake
- \* High-temperature MR-16 socket
- \* Flat, tempered, hardened, crystal-clear glass
- \* Pre-wired with 25 ft. #18/2 tin-coated lead wire
- \* Accepts optional optics for beam angles of 41 degrees, 21 degrees, and 12 degree
- \* Accepts input voltages between 9.6v and 28.8v AC for max. system design flexibility
- \* Dimmable with standard low-voltage phase dimmers
- \* LED estimated life: 60,500 hrs.
- \* LM-80 tested

Item No	Description
61-2001	Bullet MR16 LED w/stake

## WELL LIGHTS

Well Lights are used for uplighting in pavement, paving stone, poured concrete and turf applications where above-ground installation is not feasible.

- \* Durable PVC housing
- \* Adjustable stainless steel gimble ring
- \* Easy re-lamp feature
- \* Pre-wired with 25', No-Ox® tin-coated marine-grade wire
- \* MR-16 Well Light has internal shroud to prevent glare
- \* MR-16 Well Light supplied with hexcell louver
- \* CWLWFL and CWLWFLLEAD use PAR 36 lamp (included)
- \* CWLMR16 uses MR16 lamp (not included)

Item No	Description
61-1002	Well Light w/MR16 w/Hex Louver w/25' 12-2
61-1000	Well Light w/35 W WFL 25' 16-2 Lead
61-1008	Well Light Glass Lens
61-1004	Well Light Grate Flat
61-1006	Well Light Convex Lens & Brass Ring

### CRAFTSMAN BRONZE SPOT LIGHT

These compact solid bronze directional lights feature fully integrated and sealed LED's. CAST Bronze for unmatched corrosion resistance. LED components are integrated into fixture bodies to draw heat away from the LED's for maximum longevity and performance.

- \* Unbreakable bodies, hats, stems, and stake
- \* No coatings to peel, flake, chip, or fade.
- \* No threads (Set-n-Stake) for fast and secure footings
- \* Marine-Grade Tin-Coated No-Ox Wire for lifetime electrical conductivity
- \* Superior lenses and optical elements for exceptional beam quality
- \* Premium-quality LEDs deliver consistent color temperature and accurate color rendering
- \* Electronics protected from electrical spikes and surges
- \* Electromagnetic radiation (EMI) filtered to prevent interference with wireless devices

Item No	Description
61-20011	Craftsman Bronze Spot Light

### CRAFTSMAN BRONZE PATH LIGHT

Compact with extreme durability, these solid bronze path lights feature fully sealed and protected LED components.

- \* CAST solid sand-cast bronze for unmatched corrosion resistance
- \* Unbreakable bodies, hats, stems, and stake
- \* No coatings to peel, flake, chip, or fade
- \* No threads that weaken stems
- \* Marine-Grade Tin-Coated No-Ox Wire for lifetime electrical conductivity
- \* LED components integrated into fixture bodies to draw heat away from the LED's for maximum longevity and performance
- \* Premium-quality LEDs deliver consistent color temperature and accurate color rendering.
- \* Electronics protected from electrical spikes and surges
- \* Electromagnetic radiation (EMI) filtered to prevent interference with wireless devices

Item No	Description
61-20013	Craftsman Bronze Path Light

### CRAFTSMAN SILVER SPOT LIGHT

When bronze isn't necessary, these compact Eurometal directional lights feature fully integrated and sealed LED's. LED components are integrated into fixture bodies to draw heat away from the LED's for maximum longevity and performance.

- \* CAST Eurometal for unmatched corrosion resistance
- \* Unbreakable bodies, hats, stems, and stake
- \* No coatings to peel, flake, chip, or fade.
- \* No threads that weaken stems
- \* Marine-Grade Tin-Coated No-Ox Wire for lifetime electrical conductivity
- \* Premium-quality LEDs deliver consistent color temperature and accurate color rendering
- \* Superior lenses and optical elements for exceptional beam quality
- \* Electronics protected from electrical spikes and surges
- \* Electromagnetic radiation (EMI) filtered to prevent interference with wireless device

Item No	Description
61-20022	Craftsman Silver Spot Light

### CRAFTSMAN SILVER PATH LIGHT

When bronze isn't necessary, these compact Eurometal path lights feature fully sealed and protected LED components. The slate gray color is ideal for locations near weathered wood or commercial properties and represents an extremely affordable and unbreakable path light. LED components integrated into fixture bodies to draw heat away from the LED's for maximum longevity and performance.

- \* CAST Eurometal for unmatched corrosion resistance
- \* Unbreakable bodies, hats, stems, and stake
- \* No coatings to peel, flake, chip, or fade.
- \* No threads that weaken stems
- \* Marine-Grade Tin-Coated No-Ox Wire for lifetime electrical conductivity
- \* Premium-quality LEDs deliver consistent color temperature and accurate color rendering
- \* Electronics protected from electrical spikes and surges
- \* Electromagnetic radiation (EMI) filtered to prevent interference with wireless devices

Item No	Description
61-20023	Craftsman Silver Path Light

www.cast-lighting.com

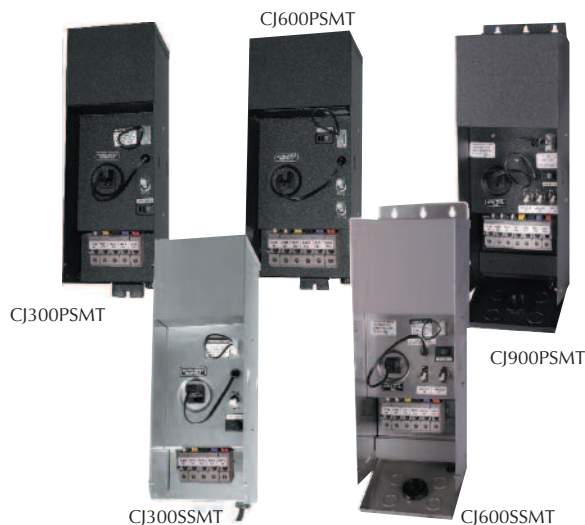

The transformer is the heart of every landscape lighting system. The new CAST line of multi-tap landscape lighting transformers offers state-of-the-art construction, components and engineering at an affordable price. This includes a host of innovative features that give the contractor greater flexibility and control to ensure consistent trouble-free operation on any size lighting project. All CAST transformers feature a fully encapsulated toroidal core for corrosion protection and heat dissipation. Internal wiring is rated to 125° C and is composed of tin-coated, marine-grade No-Ox® wire. Lifetime warranty on winding, and three-year warranty on breakers, time clock and photocell.

## MASTER SERIES

- \* Voltage taps from 12 to 18 volts
- \* Magnetic circuit breakers on commons and primary
- \* Power bypass relay to protect time clock and photocell
- \* Separate amp testing loop accessible when photocell and time clock are in place
- \* Common breakers also act as on-off switches for different lighting zones
- \* Oversized terminals for up to (7) #10 wires – no wire nuts required
- \* 125 amp terminal block for secure connections and fast changes between voltage taps
- \* Drop down wiring compartment with 12 knockouts for ease of installation
- \* Spare common tap to allow 100% utilization of transformer's capacity
- \* Photocell and time clock easily added using provided outlets

## JOURNEYMEN SERIES

- \* Voltage taps from 12 to 15 volts
- \* Magnetic circuit breakers on commons
- \* Pool and spa rated
- \* High/low primary power adjustment switch (boosts all taps one volt)
- \* Oversized terminals for up to (6) #10 wires – no wire nuts required
- \* 85 amp terminal block for secure connections and fast changes between voltage taps
- \* Photocell and time clock easily added using provided outlets
